CORNERSTONE BUILDING ACCENTS
DECORATIVE DOORS, WINDOWS & MORE

www.cornerstonebuildingaccents.com

These doors have severe western exposure without a porch overhang.

The finish had burned off exposing the wood to the elements. The panels, stiles, and rails had split and the laminated construction of the engineered stiles and rails had begun to come apart.

The doors were salvaged and the structural integrity of the doors was restored.

The wood was primed and spray coated with a top quality exterior paint. After thorough curing of the paint the doors were top coated with a clear semi-gloss urethane with UV inhibitors to add longevity and protection.
